CONTENTS OF *FIELD CROPS RESEARCH*, VOLUME 18

VOL. 18 NO. 1 — FEBRUARY 1988

Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. I. Leaf growth and leaf nitrogen
R.C. Muchow (Winnellie, N.T., Australia) 1
Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. II. Radiation interception and biomass accumulation
R.C. Muchow (Winnellie, N.T., Australia) and R. Davis (St. Lucia, Qld., Australia) 17
Effect of nitrogen supply on the comparative productivity of maize and sorghum in a semi-arid tropical environment. III. Grain yield and nitrogen accumulation
R.C. Muchow (Winnellie, N.T., Australia) 31
Growth and yield of perennial cassava in the subhumid subtropics
J.M. Greenstreet, S. Fukai and L.N. Hicks (St. Lucia, Qld., Australia) 45
Variability of soybean phenology response to temperature, daylength and rate of change in daylength
G.A. Constable and I.A. Rose (Narrabri, N.S.W., Australia) 57
Dry matter, minerals and carbohydrates in the capitulum of sunflower (*Helianthus annuus*): effects of competition between seeds, and defoliation
B.T. Steer, P.J. Hocking and A. Low (Griffith, N.S.W., Australia) 71

Book Review
Multiple Cropping 87

VOL. 18 NOS. 2/3 — APRIL 1988

Influence of daylength on yield-determining processes in six groundnut cultivars (*Arachis hypogaea*)
A. Witzenberger (Bonn, West Germany), J.H. Williams (Andhra Pradesh, India) and F. Lenz (Bonn, West Germany) 89
Fibre yield of mutants of white jute (*Corchorus capsularis*) with altered phenological development patterns
K.M. Shamsuzzaman (Mymensingh, Bangladesh), R.N. Oram, K. Malafant (Canberra, A.C.T., Australia), M.A.Q. Shaikh, A.D. Bhuiya and R.K. Dutta (Mymensingh, Bangladesh) 101
Performance of rice (*Oryza sativa*) on slopes of inland valleys in west Africa
N.V. Nguu, J.W. Gibbons and R.L. Dobson (Ibadan, Nigeria) 113
Analysis of leaf, stem and ear growth in wheat from terminal spikelet stage to anthesis
E.J.M. Kirby (Nedlands, W.A., Australia) 127
Potato (*Solanum* spp.) in the hot tropics. IV. Intercropping with maize and the influence of shade on potato microenvironment and crop growth
D.J. Midmore, J. Roca and D. Berrios (Lima, Peru) 141
Potato (*Solanum* spp.) in the hot tropics. V. Intercropping with maize and the influence of shade on tuber yields
D.J. Midmore, D. Berrios and J. Roca (Lima, Peru) 159
Effect of irrigation and nitrogen on maize–cowpea fodder intercropping at Ludhiana, India:

advantages and intercrop competition
G.C. Aggarwal and A.S. Sidhu (Ludhiana, India) 177
Quantification of temperature, photoperiod and population effects on plant leaf area in sunflower crops
V.O. Sadras and A.J. Hall (Buenos Aires, Argentina) 185

Short Communications
Changes in soybean nodule number and dry weight in response to drought
T.R. Sinclair, A.R. Zimet (Gainesville, FL, U.S.A.) and R.C. Muchow (Winnellie, N.T., Australia) 197
Impact of cropping systems on end-use quality of hard red spring wheat
C.F. McGuire (Bozeman, MT, U.S.A.), G.F. Stallknecht and R.A. Larson (Huntley, MT, U.S.A.) 203

Book Reviews
Sugarcane improvement 207
Economy of form and function 208
Roots and plant growth 210
Fertilizer technology 211

Announcements 213

VOL. 18 NO. 4 **JUNE 1988**

Yield and land use efficiency of a cassava/cowpea intercropping system grown at different phosphorus rates
S.C. Mason (Lincoln, NE, U.S.A.) and D.E. Leihner (Stuttgart, West Germany) 215
Post-flowering photoperiodic effect on reproductive efficiency and seed growth in soybean
E.N. Morandi, L.M. Casano and L.M. Reggiardo (Rosario, Argentina) 227
Growth and development in tall and dwarf isogenic lines of spring wheat
M.G. Bush and L.T. Evans (Canberra, A.C.T., Australia) 243
Field studies on abscisic acid and embryonic germinability in winter wheat
M. Hagemann Wiedenhoeft, P. Chevalier, M. Walker-Simmons and A.J. Ciha (Pullman, WA, U.S.A.) 271
Intercropping studies in Java citronella *(Cymbopogon winterianus)*
E.V.S. Prakasa Rao, M. Singh and R.S. Ganesha Rao (Bangalore, India) 279
Relationship between crop water stress index and physiological plant water status indicators in guayule
S.G. Allen and F.S. Nakayama (Phoenix, AZ, U.S.A.) 287

Book Reviews
Rubber from guayule 297
Seed deterioration 298
Improving soybeans 299
